

GISLEHAM PARISH COUNCIL

On 2nd April 2020, Gisleham Parish Council received amended drawings for an Application for which they had previously recommended Approval.

In line with Government advice, Councillors considered these amendments by visiting the East Suffolk Council Planning website and, subsequently, discussing their observations with the Chairman of Gisleham Parish Council.

1. To consider amendments to the following planning application: -

A: DC/20/0926FUL

Proposal: Construction of a two storey rear extension, single storey rear extension, loft dormer

Address: Heathdene, Gisleham Road, Gisleham

The amendments were to remove all first floor alterations and extensions, and to provide the additional accommodation at ground floor level only, with an increase to the footprint.

Councillors had previously been concerned about the 'overlooking' provided by the original Application, and which the Applicant had agreed to consider.

The amendments to that Application have completely removed that concern.

Councillors recommendation is, therefore, that this Application be **APPROVED**
